

# TARTE KITCHEN | Issue + Solution Sheet

One row per issue. No issue without a proposed solution. Photo the finished page and send it to Chloe.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

| Issue (what is happening) | Impact (time / \$ / quality) | My solution | What I need + from who | By when |
|---------------------------|------------------------------|-------------|------------------------|---------|
|                           |                              |             |                        |         |
|                           |                              |             |                        |         |
|                           |                              |             |                        |         |
|                           |                              |             |                        |         |
|                           |                              |             |                        |         |
|                           |                              |             |                        |         |

Rule we agreed: problems come with a solution attached. If you are not sure of the solution, write your best idea and we will build on it together.

# TARTE KITCHEN | Head Chef Weekly Update

Fill in Thursday or Friday. 10 minutes max. Photo it and send to Chloe, every week, even quiet ones.

---

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## 1. What went well this week

## 2. Problems this week + what I did about them (issue and action, not just the issue)

## 3. Equipment: anything broken, faulty or getting worse (also fill an Equipment Fault Report)

## 4. Staff + roster: next 2 weeks (gaps, leave, training, roster posted yes / no)

## 5. Prep + waste notes (anything thrown out, why, and the fix)

## 6. What I need from Chloe

# TARTE KITCHEN | Equipment Fault Report

Fill in the same day the fault appears. Photo it and send to Chloe. One sheet per item.

---

Reported by: \_\_\_\_\_ Date: \_\_\_\_\_

Equipment item: \_\_\_\_\_ Location / kitchen: \_\_\_\_\_

**What is wrong (and any error code on the display)**

**Since when, and is it getting worse?**

**What we have already tried**

**How urgent?**      ☐ Can wait      ☐ Needs fixing this week      ☐ Affecting service NOW

**Follow-up (Chloe fills in): who is fixing it, booked for when**

*If it is still broken 7 days after this report, raise it again. Chasing a fault twice is never annoying. Silence is the only problem.*

# TARTE KITCHEN | Meeting Action Tracker

Every meeting ends with this sheet filled in. We review it at the start of the next meeting, first thing.

Meeting date: \_\_\_\_\_ Who was there: \_\_\_\_\_

| # | Action we agreed | Owner | By when | Done? (date) |
|---|------------------|-------|---------|--------------|
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |
|   |                  |       |         |              |

*An action with no owner and no date is not an action, it is a wish. Every row gets all three.*

# TARTE KITCHEN | Said + Done (Head Chef Commitments)

What we agree gets a date. What has a date gets checked. Chloe tracks this same list digitally, week by week.

## A. Standing commitments, checked every week

| Standing commitment                        | W/C<br>__ / __ | W/C<br>__ / __ | W/C<br>__ / __ | W/C<br>__ / __ | W/C<br>__ / __ | W/C<br>__ / __ | Notes |
|--------------------------------------------|----------------|----------------|----------------|----------------|----------------|----------------|-------|
| Roster posted 3 weeks ahead                |                |                |                |                |                |                |       |
| Portions weighed, every prep, every day    |                |                |                |                |                |                |       |
| Daily + weekly checklists done in the app  |                |                |                |                |                |                |       |
| Weekly Update sent by Friday               |                |                |                |                |                |                |       |
| Messages answered same day                 |                |                |                |                |                |                |       |
| Frustrations raised early, no silent weeks |                |                |                |                |                |                |       |
|                                            |                |                |                |                |                |                |       |

Mark each week Y or N. A written N with a reason is fine. A blank is not.

## B. One-off commitments: you said it, we date it

New dishes, systems you want to implement, policy write-ups, fixes. Nothing lives as an idea, everything lands here with a firm date.

| What was promised | Who said it | Date agreed | Firm due date | Done (date) | If missed: new date + why |
|-------------------|-------------|-------------|---------------|-------------|---------------------------|
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |
|                   |             |             |               |             |                           |

This sheet works both ways: Chloe's promises go on it too. Consistent green weeks are the path to the next \$3.
